

CLASS ROOM

Learning isn't a stage of life; it continues throughout our lifetime. ASPIRO's classroom engages clients in lifelong learning through discussion on current events and skill enhancement activities.

Current Events

Each day the class discusses local, national and global events making the news. Topics range from sports, weather, health, technology, environment and more. One recent example is the Olympics. "What do the colors of the rings stand for? "Why do they light a torch?" If they don't know the answers, they research them together.

Journaling

Clients journal about their daily activities or answer question prompts. For example, "What would your dream job be?" Journaling can be done in a notebook or by using an iPad. Relaxing music is played to slow us down to reflect and think.

Skill Enhancement

"Classroom activities are geared towards continued skill development. Examples include crossword puzzles (spelling), basic math, online safety, communication, everyday interactions, social skills, sign language, conflict resolution and problem solving.
