Visit them at www.filtrationservicesinc.com.

Product produced by ASPIRO: Filter Media used in a variety of HVAC and Paint Booth Applications.

What is your satisfaction level of the output of your product? Very High

Why did you choose ASPIRO to partner with your business?

Filtration Services Vice President, Mark Warden, "I've been familiar with ASPIRO for a number of years given that my wonderful aunt is a client of ASPIRO. Throughout the years I would ask her how "work" was going at ASPIRO and could tell it gave her a sense of pride and accomplishment as she let me know what she was currently working on or how a particular project was going. She also would let me know if things were slow and that she always hoped there were projects to work on to keep her busy.

From a production standpoint ASPIRO does a very good job paying attention to detail and communicating with us how current jobs are moving along their production schedule. We know we can count on them to help us out in a rush situation or something custom that may be required by our customers."

For your filter needs, contact Mark at 920-845-5810.
