

GREEN BAY PACKAGING

“Customer and supplier all in one!

ASPIRO is a great partner in so many ways to Green Bay Packaging. Initially, Green Bay Packaging earned ASPIRO’s business and then strengthened our partnership to understand and know the capabilities of their workforce. The ASPIRO team is now a supplier to Green Bay Packaging; supporting many facets that help meet our customers’ needs,” states Tom Andrews, Sales Manager for Green Bay Packaging’s Shipping Container Division.

ASPIRO assembles partition sets and performs a count and package function for two additional jobs; earning a *great* satisfaction level from Green Bay Packaging.

To go from being a customer to supplier, Green Bay Packaging chose ASPIRO because of our competitive price, streamlined process and engaged workforce.

Now, together we are providing invaluable work opportunities for people with disabilities and a custom solution for Green Bay Packaging’s customers. *Now that’s building a better box.*

**Green Bay Packaging. Building a better box.
Innovative thinking since 1933.**
