

LEISURE

ROOM

Leisure is time free from obligations, work and required tasks. The Leisure Room explores activities clients can take part in during their free time through intrinsic motivation and which give them feelings of satisfaction, enjoyment and gratification.

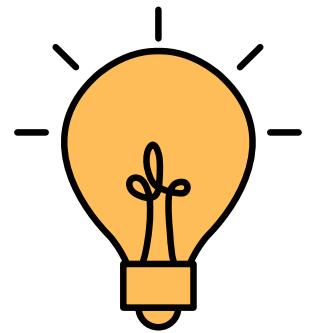

Travel

We will discover and explore destinations all around the world via class discussions and virtual tours; learning about each destination's location, flag, language, landmarks, sports teams, food/music, fun facts, animals and more! The adventure is enhanced by use of client "passports" and the making of photo albums/scrapbooks.

Clients will be able to express themselves creatively as they learn and use basic crafting skills to create handicrafts for themselves and their homes. Some of the materials used will include paper, yarn, beads, felt and wood. Patience will be applied as we take the necessary time to work on projects they are sure to be proud of.

Get Creative

Lifting Others Up

All interactions encourage each other to listen to other ideas, help one another, elevate self-esteem and promote confidence.

Friday Funday

Friday is our fun day! We disguise skill building in entertaining game play. Once the group decides on background music, the games begin starting with 2-player games such as table cornhole, Connect 4, Battleship, table shuffleboard, checkers and various card games. Then we transition to multiplayer games such as Strike, LCR (left, center, right) Yahtzee, or bingo.
