**GREEN BAY PALLET**

As manufacturing partners, you would think our relationship would involve pallets. But rather than pallets, ASPIRO counts and packages 12” paint stir sticks for Green Bay Pallet, Inc.

“We started working with ASPIRO by bringing in two of their clients to help with cleaning our facility. We enjoy having Jacob and Abby as part of our team so much that we were hopeful to somehow contract with ASPIRO’s manufacturing facility to enhance that relationship.

When we obtained a paint stick job that required certain packaging, we thought of ASPIRO right away. **It has been a perfect match.** They do such a great job communicating. This is our first product that is finalized off site, so their team has helped us through the entire process. Great communication and great quality work. We are so glad they are able to help us with this project – and hopefully more to come!”

— Green Bay Pallet Business Manager, Ann VandeHei.

## **ABOUT GREEN BAY PALLET**

Serving the Midwest since 1978, Green Bay Pallet is an efficient manufacturer of high quality custom design, export certified, military spec, and standard size pallets, skids, boxes, crates, and other specialty wood items. They are located on Pamperin Road in Green Bay.
