

**September 22, 2020**  
**COVID-19 Update**

On Tuesday, September 22, ASPIRO was notified that an individual from our Dousman Street location tested positive for COVID-19. This individual had been working off-site and had no contact with clients or staff within the building.

ASPIRO has conducted internal contact tracing. Anyone who may have had close contact with the individual has been communicated with. Additional disinfecting has also taken place.

ASPIRO's focus will continue to be to prevent symptomatic people from accessing ASPIRO facilities through daily temperature screening, temporarily removing individuals who present symptoms, and welcoming back clients and staff once they have recovered from COVID-19.

ASPIRO follows the best practice of having clients and staff wear a face mask, encourage hand washing/using hand sanitizer and practice social distancing. Additional cleaning and disinfecting also takes place daily at the Dousman and Stiles locations.

ASPIRO is determined to provide a safe and welcoming place for the people who utilize our services. We will post weekly COVID-19 announcements on our website: [www.aspiroinc.org](http://www.aspiroinc.org).

Definitions:

Close contact: Within six feet for longer than 15 minutes.
